ZP-7064wax

PRODUCT DATA SHEET

ALUMINUM PELLETS

TECHNICAL DATA

Grade..... 325 Mesh Grade

Screen Analysis.....99.00% minimum through 325 mesh
(wet method)

Aluminum Content..... 80-85%

Size(D50).....6um(±1)

Carrier..... PE Wax

APPLICATIONS GUIDELINES

ZP-7064wax is used in masterbatch compounding.

RECOMMENDED DISPERSION PROCEDURE

Under slow agitation, add sufficient amount of solvent to the aluminum pellet to develop a smooth pigment slurry. Then add further solvent of choice and vehicle system where needed.

SHELF TIME: ONE YEAR
